# LEARN THROUGH NATURE

## ENVIRONMENTAL EDUCATION

Dinton Activity Centre isn't just about adventure it's about helping young people connect with the natural world. Surrounded by lakes, meadows and woodlands, our programmes inspire curiosity while encouraging responsibility for the environment.

Schools can choose from a range of instructor-led activities including mini beast safari, meadow and woodland habitat studies, natural navigation, map walks, river studies and wilderness survival skills. These sessions bring science and geography to life, giving pupils the chance to explore ecosystems up close. For groups looking to keep costs down, we also offer self-guided nature sessions. With our maps, workbooks, and resources, teachers and leaders can run their own sessions at a pace that suits their group ideal for budget-friendly outdoor learning that's still rich in discovery.

Whether led by our expert instructors or guided by you, every activity helps students build environmental awareness, understand ecosystems, and develop a lifelong respect for the natural world. No lesson planning is required: all sessions are tailored towards the Key Stage 1 and 2 National Curriculum syllabus and include work booklets to take back to school.

# OUR ENVIRONMENTAL EDUCATION PACKAGES

## Meadows and Woodland - KS1 & KS2

Find out what is flying, crawling, creeping and hiding in the grass meadows and woodland and habitats at Dinton.

## Mini Beast Safari - KS1 & KS2

Take a walk around Dinton with a copy of our booklets to hunt and learn about the different types of little creatures that inhabit the park.

## Map Walks - KS1

What makes a map a Map? And how do we use one? Our map walks are tailored to Key Stage 1 and they look at where do we use maps, what does a map show us and what does it need? Then how we use it to get our bearings and decide where we want to go.

## Wilderness Skills - KS1 & KS2

An introductory session to the world of bushcraft, with shelter building for teddy bears, the art of tracking and using the natural world to navigate. This session has no fire lighting involved.

## River Studies - KS2

Measure, explore and analyse the waterways of Dinton. Bring your wellies and we will supply everything else for an in depth study of a section of one of our site rivers.

## Natural Navigation - KS2

The ability to read the world around us to find our way has been an essential life skill for millennia. This awareness of the signs and cues given to us by nature is being slowly lost. This experiential session aims to get the students to open their senses to the natural world around them to identify different natural navigation markers to help them find their way.

### MIN. 8 PARTICIPANTS
